TABLE OF

CONTENS

WHO ARE WE?

We - TDH JSC, were established by the members, who have worked many years in the **industry, petroleum, electricity and laboratory**. We would like to become a trusted partner in providing equipment and technical services to customers. Our goal is to become **the distributor of the prestigious manufacturers** in the world in the field of laboratory, measurement and automation in Vietnam market.

With a group of staffs, engineers are intensively trained and specialized in each field, TDH always makes our utmost effort to bring satisfaction to customers.

01 Introduction

02 Experience & Vision

03 Our Team

04 Our Bussiness

05 Equipment Trading

08 Technical Services

18 Our Partners and Customer

WHAT GUIDE US?

We believe that success comes from teamwork. We apply all our company resources at the service of our customers and partners, from our experience to our knowledge, energy and innovative spirit of our people.

OUR EXPERIENCE

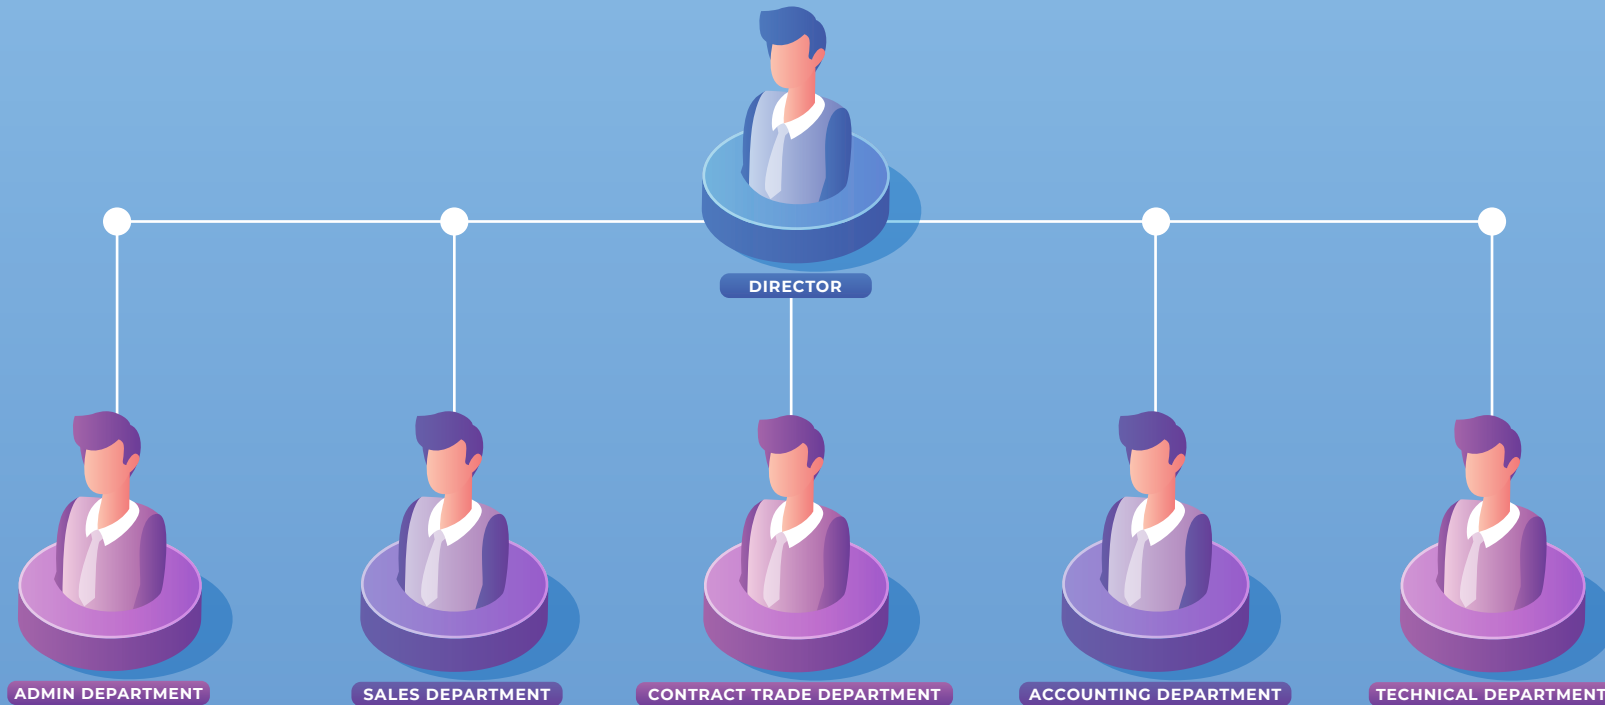

- Supply of machinery, equipment and spare parts for industries.
- Supply of automation equipment and equipment for oil and gas, fertilizer, electricity and marine industries.
- Equipment rental, repair and maintenance services for automated measuring and testing equipment.

VISION

- Focusing on offering good quality products and presenting to our customer new technologies along with the exceptional services in order to meet customer needs.
- To build an open and safe working environment.
- Appropriate training to be provided for staffs to meet the requirements of their job.
- Apply, carry out and update the quality management system approved by international organizations.
- To be a trusted supplier for products and services to meet client's requirements.

OUR TEAM

- Board of Directors: 01 people (Automation Engineer).
- Sales Specialist: 04 people (100% are engineers graduated from technical universities).
- Technical Experts: 04 people (100% are engineers graduated from technical universities).
- Contract Trade Specialist: 02 people (100% are bachelors of trade universities).
- Administration: 02 people (100% are bachelors graduated from universities).
- Accounting: 02 people (100% are bachelors graduated from universities).

EQUIPMENT TRADING

- Laboratory equipment (Petroleum - Power industry).
- Testing - Measuring - Calibrating Equipment (Mechanical, Electrical, Automation).
- Equipment for training and teaching.
- Machine tools - Specialized tools.
- Online corrosion monitoring measurement equipment for oil and gas projects.
- Spare parts for System Measurement - Control - Monitoring system status.
- Spare parts for technology systems in oil and gas rigs, power plants, fertilizer plants, ships.

TECHNICAL SERVICES

- Repair and calibration of laboratory equipment, automation.
- Maintenance service for mechanical equipment, cranes, forklifts.
- Processing and manufacturing simple mechanical machine parts.
- Designing, processing, manufacturing.
- Technical service for wellbore intervention.
- Design and manufacture control circuit boards, for automatic devices, write control software programs for equipment according to customer's requirements.

OUR BUSINESS

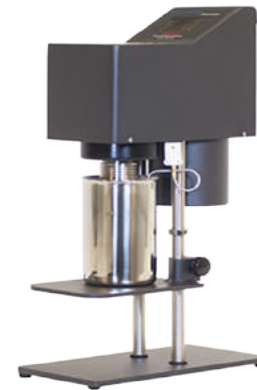

We strive to be a one-stop provider to our customers for their diverse needs in equipment and packages. At the same time, we currently provide technical services for oil and gas industry, especially in wellbore intervention.

OUR BUSINESS

EQUIPMENT TRADING

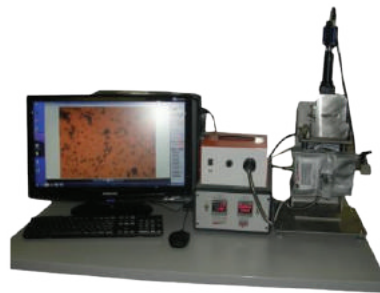

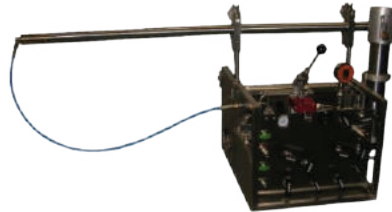

Provide laboratory and wellbore equipment for oil and gas industry

OUR BUSINESS

EQUIPMENT TRADING

Provide laboratory and wellbore equipment for oil and gas industry

OUR BUSINESS

EQUIPMENT TRADING

Provide laboratory and wellbore equipment for oil and gas industry

TECHNICAL SERVICES

ONSHORE SERVICE

Equipment repair and maintenance for laboratory in NIPi - **Vietsovpetro**.

TECHNICAL SERVICES

ONSHORE SERVICE

Equipment maintenance for laboratory instruments of stone physics and drilling fluid in NIPi - **Vietsovpetro**.

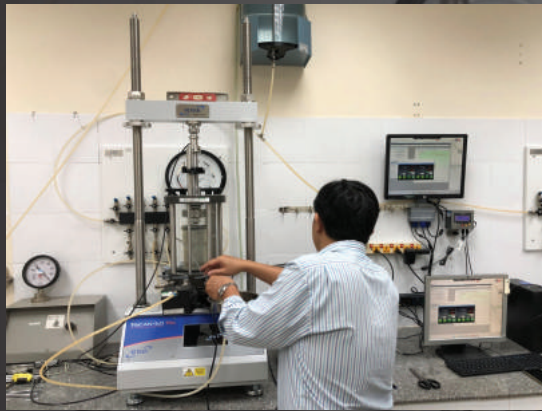

TECHNICAL SERVICES

ONSHORE SERVICE

TECHNICAL SERVICES

ONSHORE SERVICE

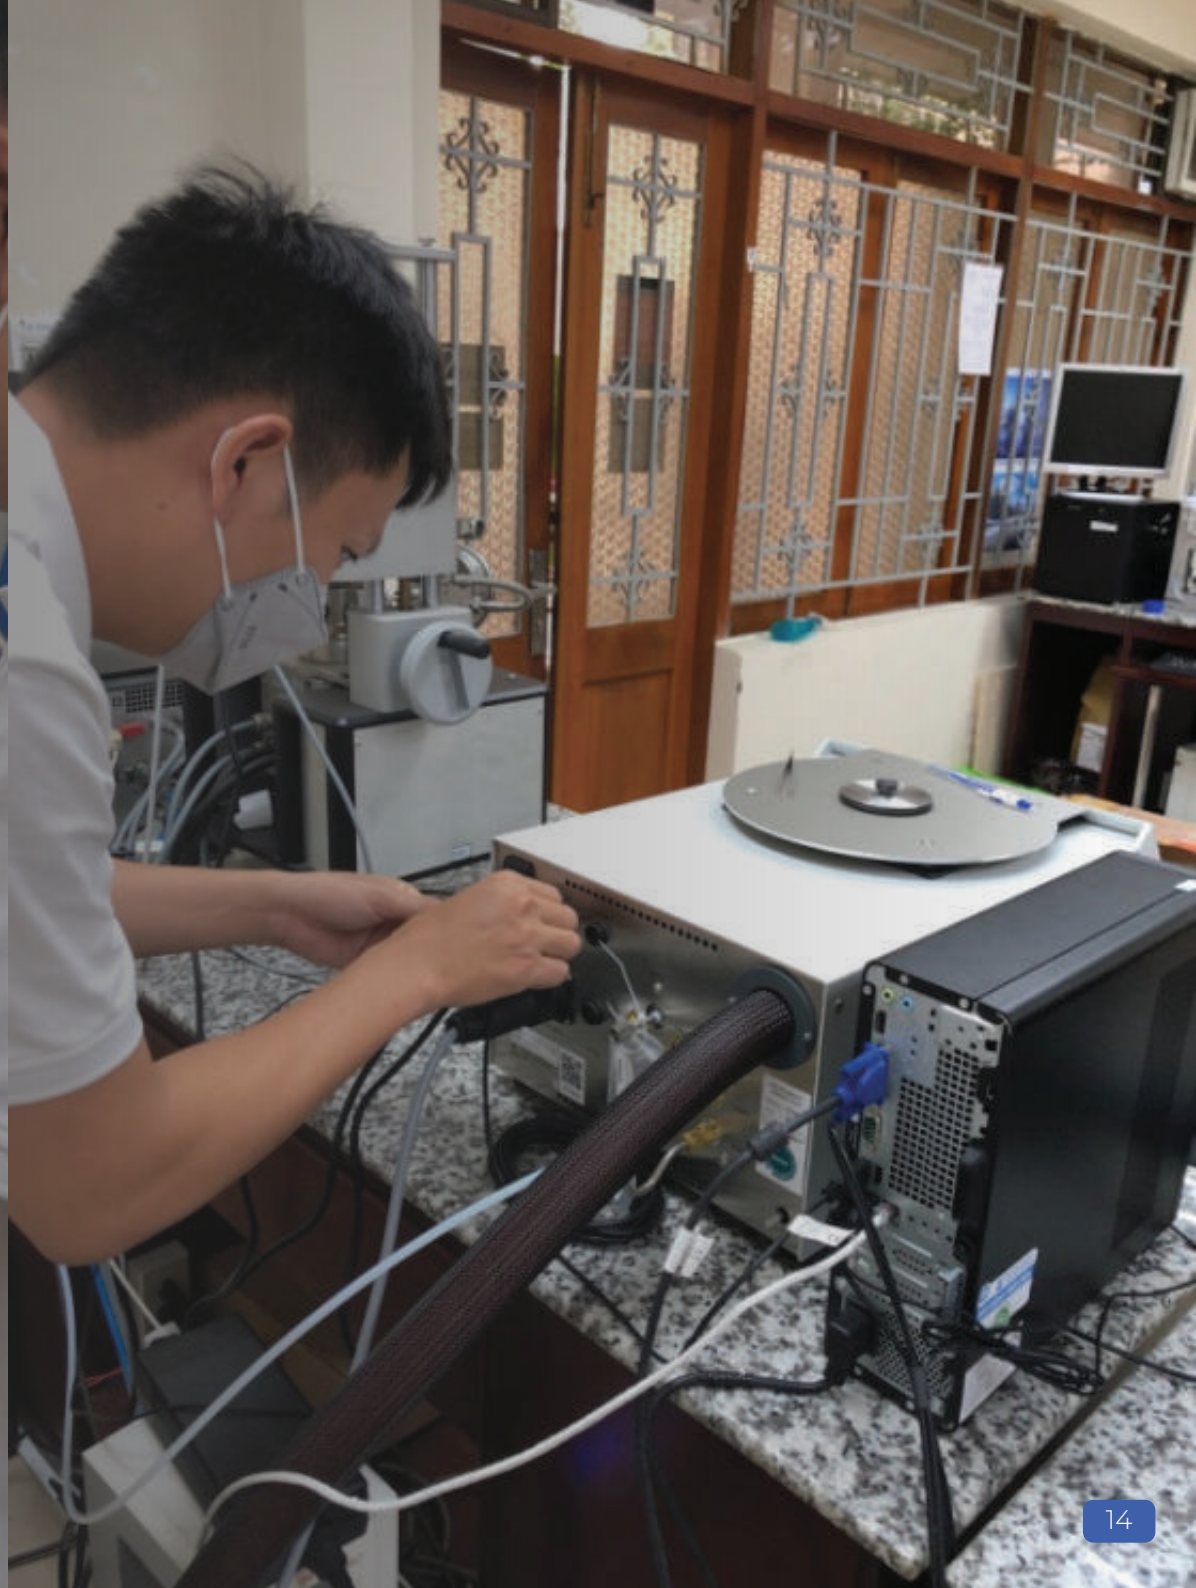

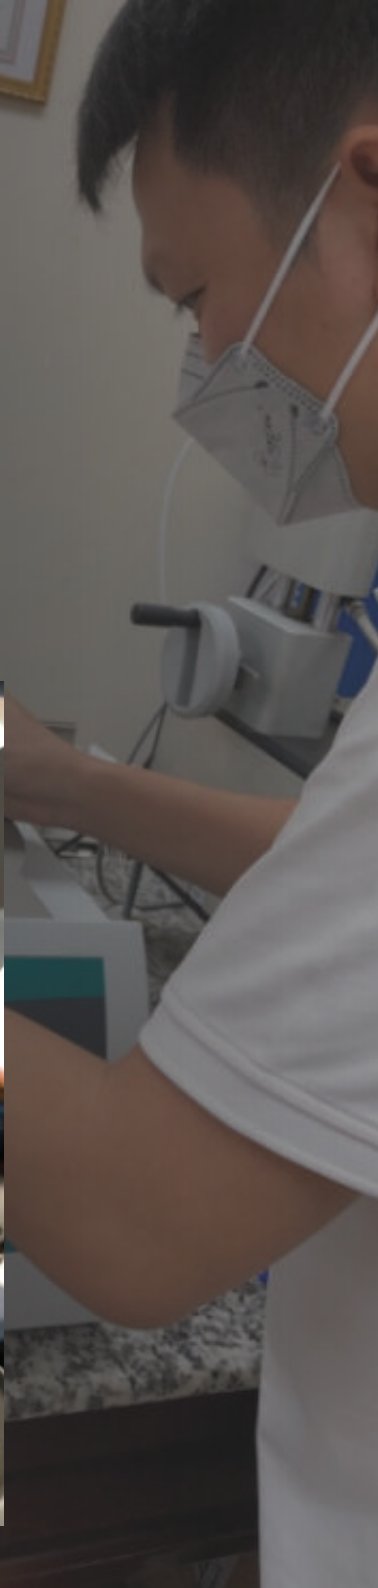

TECHNICAL SERVICES

ONSHORE SERVICE

TECHNICAL SERVICES

ONSHORE SERVICE

TECHNICAL SERVICES

OFFSHORE SERVICE

Design and manufacture of acid pumping system into the well.

TECHNICAL SERVICES

OFFSHORE SERVICE

Installing a heater bundle system outside the CCP platform.

TECHNICAL SERVICES

OFFSHORE SERVICE

OUR PARTNERS

- TDH has close relationship with many manufacturers all over the world through many years working together.
- We currently are a distributor for many companies.

Manufacturer - Origin
Fann - USA

Type of equipment:

- Drilling fluid testing equipment:
- Viscosity measurement device.
 - Lubricant measuring device.
 - Equipment for measuring waste water return.
 - Density balance, analytical balance.
 - High pressure temperature sample rotary kiln.
 - Adhesion measuring device.
 - HTHP cement testing equipment.

Manufacturer - Origin
PSL - Technick Germany

Type of equipment:

- Oil test analyzer, ensure flow:
- Cold Finger (CF).
 - Differential Dynamic Scale Loop.
 - Dynamic Stability Loop (DySL).
 - Flocculation Titrimeter (FT).
 - Foam Tester (FOA).
 - Gas Hydrate Autoclave (GHA).
 - H2S Analyzer.
 - Pour Point Tester (PPT).
 - Rocking Cell (RC5).
 - Viscometry Measuring Site (VM).

Manufacturer - Origin
FloXlab - France

Type of equipment:

- Core sample analyzer, mechanical properties:
- Fraclab hydraulic fracture test system.
 - pcm-proppant conductivity meter.
 - pct-proppant crush tester.
 - rcp curing and compressive strength tester.

Manufacturer - Origin
Horiba - Japan

HORIBA

Type of equipment:

General laboratory analytical equipment:

- Equipment for analysis and assessment of the environment.
- Spectrophotometer.
- Oil analysis equipment.
- Equipment to analyze Sulfur content in oil.
- Equipment for analyzing water content in oil.

Manufacturer - Origin
ClearWell - UK

ClearWELL
Oilfield Solutions

Type of equipment:

Frequency method SCALE processing equipment:

- Oil wells.
- Gas wells.
- Onshore wells.
- Offshore wells with dry trees.
- Free flowing wells.

Manufacturer - Origin
Vinci Technologies

 **VINCI**
TECHNOLOGIES

Type of equipment:

Laboratory and field instruments:

- Enhanced oil recovery.
- Unconventional reservoirs.
- Flow assurance.
- Fluid sampling.

Manufacturer - Origin
Europcorr SRL

 **EuropCorr**

Type of equipment:

Corrosion monitoring for oil and gas industry:

- High pressure mechanical retrieval tool.
- Internal corrosion monitoring systems.

OUR OTHER PARTNERS

Scamex-France, Scan Dryer-Sweden, Draka/Prysmian-France, Wedmuller-Germany, Binsfeld-USA, HIP-USA, Fluke-USA, Rae System-USA, Applied Analytical-USA, Ajax Machine Tools-UK, Exheat-UK, Gardner Denver-USA, Cosasco-USA, Technomark-France, Fiber Optic Cable-USA, Elgin Separation Solutions-USA, Nrp-John-USA.

OUR CUSTOMER

Our customer are our starting point. They drive everything we do and we work collaboratively with them to achieve results they can measure. Our size enables our specialists to work closely together to develop tailor-made solutions that meet our client's evolving needs.

Binh Son Refining And Petrochemical
Joint Stock Company

Joint Venture Vietsovpetro

M-I SWACO

Petrovietnam Chemical and Services Corporation
(PVChem)

PetroVietnam ManPower Training College (PMTc)

PetroVietnam University

Vietnam Petroleum Institute - Vietsovpetro

Vietsovpetro - NIPI
